

Detect early warning signs of water
and fire damage with the

WILKEY WATCHMANSM

Processors lose valuable hulls every year due to rainfall and moisture build-up in hull piles. These piles frequently catch fire without warning. In response to these concerns, Wilkey Industries created the **Wilkey WatchmenSM**, a unique, easy-to-install tool that:

- Ventilates almond hull & shell piles
- Provides visual smoke detection, which reduces the possibility of hull pile fires
- Reduces hull pile exposure to rain
- Maintains good hull quality

Be proactive, protect your hull piles today with the affordable and effective **Wilkey WatchmenSM**

Wilkey Industries, Inc.

830 S. Tegner Rd., Turlock, CA 95380

Since 1993, Wilkey Industries (WI) has specialized in providing innovative solutions through design, fabrication and installation of processing equipment in agricultural, industrial and manufacturing facilities.

Over the years, WI has improved the performance of many processing facilities throughout the state. With over 120 years of cumulative experience, we can work with you to meet your specific processing needs, including:

- **Air Pollution Control (Air Filtration & Emissions Containment)**

 - System & Ducting Design

 - Ducting Fabrication & Installation

 - Baghouse Fabrication & Installation

 - Obtain and Update Air Permit

- **Material Handling**

 - Bucket Elevators

 - Belt Conveyors

 - Augers

 - Pneumatic Conveyance

- **Product Separation by Aspiration**

- **Plant Layout & Design**

- **Metal Fabrication**

 - Steel

 - Galvanized

 - Stainless

 - Aluminum

 - Copper

- **Installation**

- **Maintenance Solutions**
